Dedicated working professional with a strong academic foundation and a passion for optimizing logistics and operations.

Current Experience:

Operations Manager, AUTO Logistics India Pvt. Ltd. Delhi, India

Mar-2025- Till Date

- These are our Major Client with whom we work. clients Hero, TVS, Honda, Royal Enfield, and others.
- In addition, I set up a single point of contact for my clients' shipment-related inquiries and provide them with a daily MIS Report & Verify e-way Bill.
- "Reliable bike logistics professional with strong route planning skills and a track record of on-time deliveries."
- "Efficient bike courier skilled in safe handling, quick navigation, and fast, accurate order deliveries."
- "Dedicated delivery executive experienced in last-mile logistics, customer service, and high-volume order management."
- "Punctual and safety-focused bike rider with expertise in urban delivery operations and route optimization."
- "Hardworking bike logistics associate committed to timely deliveries, customer satisfaction, and efficient workflow."

Key Operations Manager, Goel Road Carriers Private Limited, (RDG Group) Delhi, India

July 2023 – Mar-2025

- I oversee a few clients as a KOM (key operation manager) at work, whose major clients are V-guard industries, Orient electronic, OKAYA power, Somany hindware limited and others.
- I efficiently oversee supply chain operations, maximize transportation, and work with suppliers to ensure smooth logistics execution in my capacity as a logistics coordinator.
- My primary responsibility in this procedure is to manage every shipment, which includes supervising the entire process from material selection to delivery location and tracking the shipment's progress.
- In addition, I set up a single point of contact for my clients' shipment-related inquiries and provide them with a daily MIS report.

Om Logistics Ltd. Assistant operation Executive

Feb 2016 - May 2023

- Providing daily MIS report to clients regarding the status of shipment, delays and shortage
- Maintaining SLA of a client
- Taking care of shipment from First mile to Last mile, also dealing with AIR express and Train shipment which need extra coordination
- Review business reports every month for continuous growth.
- Identifying the failure area to improve through various decision making.
- Developing and maintaining Key Performance Indicators (KPIs) and performing Root Cause Analysis (RCA) to meet the improvements required for the operations process which is causing delay.
- Deliver solutions to logistics problems while maintaining high levels of quality and service.
- Created a dashboard to monitor overall Escalation Performance on Excel.
